IDENTIFICATION FOR DAY CAMP SWIM LEVELS

Purchase Day Camp has established criteria for determining the swimming level of each camper for Free Swim. Three (3) levels will be implemented: Level I - Beginner Swimmer Level II - Shallow Water Swimmer Level III - Deep Water Swimmer.

A **LEVEL I** Beginner Swimmer will be identified with a **NAVY ARMBAND** while at the pool and will be defined as a camper who cannot perform a single bob and cannot perform the prone float and recovery. Campers determined to be Level I - Beginner Swimmers will be restricted to the "Blue Pool" or "Green Pool" depending on the group assignment. The Blue Pool is two (2) feet at its shallowest point to a maximum of three (3) and ½ (3.5) feet deep. The Green Pool is two (2) feet at its shallowest point to a maximum of four (4) feet deep. All campers going into kindergarten or younger will automatically be classified as a LEVEL I Swimmer regardless of ability.

A **LEVEL II** Shallow Water Swimmer will be identified by having **NO ARM BAND** while at the pool and will be defined as a camper who successfully performs a single bob and the prone float and recovery, but cannot perform the Deep Water Test. Campers determined to be Level II - Shallow Water Swimmers will be restricted to the "Blue Pool" or "Green Pool" depending on the group assignment. These swimmers will be identified by having **NO ARM BAND**. The Blue Pool is two (2) feet at its shallowest point to a maximum of three (3) and ½ (3.5) feet deep. The Green Pool is two (2) feet at its shallowest point to a maximum of four (4) feet deep

A **LEVEL III** Deep Water Swimmer who successfully completes the Deep Water Test will be identified by a **RED ARMBAND** while at the pool. The Deep Water Test is comprised of 60 seconds of treading water, six (6) widths of the "Red Pool" using a "good crawl" or "good breaststroke" followed by 60 seconds of treading water. A "good crawl" is defined as the proper stroke, with breathing on the side, not in the front. A "good breaststroke" is defined as the proper stroke with all the proper timing as well as the correct glide. Campers determined to be Level III - Deep Water Swimmers will be restricted to the "Red Pool" or "Green Pool". The Red Pool is four (4) feet at its shallowest point to a maximum of ten (10) feet deep. The Green Pool is two (2) feet at its shallowest point to a maximum of four (4) feet deep.

PURCHASE POOL DEEP WATER TEST

ELIGIBILITY – Prior to taking the test, campers must demonstrate a deep water readiness to our TEAM Members showing an acceptable crawl or breaststroke, the ability to tread water, confidence and endurance.

TEST REQUIREMENTS

- 1) One minute of treading in deep water.
- 2) Six widths of the pool with an acceptable crawl or breast stroke technique.
- 3) One minute of treading in deep water.

PASSING THE DEEP WATER TEST - Individuals passing the Purchase Pool Deep Water Test will receive a certificate of completion.

INCOMPLETE TEST RESULT - Individuals unable to complete the deep water test will be informed of the reasons for the incomplete results.

RE-TESTING POLICY - Individuals requiring a re-test must wait until the next day and/or be perceived to be "ready" by the Waterfront TEAM

COMMON UNACCEPTABLE TECHNIQUES

- 1) Double pump on crawl stroke.
- 2) Breathing forward on crawl stroke.
- 3) Arms not forming an outward sweep or wiping face after each pull on breaststroke.
- 4) Pulling & kicking at same time or use of a kick other than the breast stroke kick on the breaststroke.
- 5) Head below water, treading on back or not stationary when treading water.

SWIM POLICIES

SWIM ATTIRE, ILLNESS, AND PROGRESS

Campers should bring swim attire to camp each day regardless of the weather. In the event of inclement weather, the Administration will make the decision whether or not we go swimming. If a parent does not wish for their child to swim due to illness etc. they must send a note in with the camper. Please turn the note in to the camper's TEAM Leader so that we can give a copy to the Swim Program Coordinator. If a parent has any questions about the swim progress of their child or a problem relating to the swim program, they should contact the Swim Program Coordinator.

AQUA SHOES PERMITTED (RESTRICTED USE)

Campers may use aqua shoes to get to and from locker rooms and at each of our three pools. No one will be allowed to use aqua shoes in the pool if they have been worn for purposes other than those listed.

EYE IRRITATION AT THE POOL

A high level of chlorine is not the reason why eyes get red or irritated after a long day at the pool. A high or low pH reading is what usually causes these conditions. A major factor affecting pH balance is sunscreen. The type and amount of sunscreen in the water can be the main reason for swimmers eye irritation. All pool chemical readings are monitored twice hourly.

GOGGLE USE AT THE POOL

Purchase Day Camp will allow the use of goggles during instructional swim for medical reasons only. While we discourage the use of goggles at any time, campers will be allowed to use their own goggles during Free Swim. Goggles used must only cover the eyes. No goggles or masks which cover the nose or mouth will be allowed at the pool at any time.

SUNSCREEN

We require a waterproof product. Parents should apply the sunscreen before camp. Additional applications will be applied by the Counseling TEAM only if a waterproof product is supplied and written permission given by parent or guardian.

SPECIAL DISMISSAL

PRIVATE LESSONS DISMISSAL AND PICK-UP

Campers attending pre-arranged private swim or tennis lessons will be dismissed to the Pool Pick up Program. Campers will be released to the Instructor assigned to the lesson. A note indicating who the Instructor is must be sent in and the Parent/Guardian is responsible for pick up at the conclusion of the lesson.

CAMPERS LEAVING PREMISES

Purchase Day Campers will be released to a parent or an adult guardian ONLY. Because campers will not be allowed to leave the premises unescorted, parents who are unable to pick up their child must make arrangements for their child to be picked up by another parent or adult guardian.

BUS TRANSPORTATION

A Bus Transportation schedule is provided to Bus Campers.

BUS TRANSPORTATION COMPANY – First Student Bus Company

BUS DRIVERS - Provided by First Student Bus Company. A specific listing of Drivers and Routes will be available prior to camp

BUS TRANSPORTATION GUIDELINES

A parent or guardian should be at home each day for each child's scheduled arrival. Parents should allow several minutes grace on either side of the scheduled time for absences or delays en route (AM also). If it is impossible to have someone greeting a child, parents must notify the camp office. At dismissal each day, buses will leave the camp grounds at approximately 3:50 to 3:55 PM.

Parents should notify the person at the stop before theirs if their child is not attending camp on a given day (check enrollment weeks listed on bus schedule before calling).

In an effort to avoid unnecessary delays en route to and from camp, we ask parents not to visit with bus drivers. Parents should direct all requests and concerns etc. through the Day Camp office. Bus drivers cannot approve enrollment changes.

For safety reasons, we ask that children not eat on the buses.

We expect bus campers to adhere to the following behavior guidelines:

- a) Remain in bus seats at all times en route to and from camp.
- b) Try to keep voices to a moderate pitch.
- c) Give the bus driver and fellow passengers respect at all times.
- d) No food or drinks are permitted
- e) Keep seat belt buckled at all times.

If a house, driveway or mailbox is not identified by the camper's last name or a street number, parents should appropriately label one or more of the above prior to June 19th.

New York State Law requires each child on bus transportation to be seat belted. Parents are strongly urged to instruct their child in the proper use of a standard seat belt.

State Law requires an A.A.A. approved booster seat for all children under the age of 4 on bus transportation. A.A.A. approved booster seats will be provided by the bus company and must be left in the bus for the duration of the transportation enrollment.

BUS TRANSPORTATION NOTE:

Children not registered for AM or PM bus transportation are NOT permitted to use the bus under any circumstances. Bus transportation is not available for extended hours. Bus drop-off location can only be changed in an extreme emergency and to a location on a regular route; with the approval of the Camp Director.

BUS ARRIVAL & DISMISSAL

Sr. Campers will meet on the lower blacktop everyday unless it is raining; in which case they will meet in their Rainy Day Opening Location. T-N-T and Sr. Camp dismissal will be from the auditorium, activity rooms or gym, (depending on age group) to each camper's bus. Jr. Campers (AM) will meet everyday in the auditorium. Jr. Camper (AM) dismissal and Jr. Camper (PM) arrival will be held on front porch of main building. Jr. Camper (PM) dismissal will be from Girls Locker Room #3 to each camper's bus.

HEALTH POLICY

CAMPER ILLNESS AT CAMP

Purchase Day Camp prides itself on having a professional nursing TEAM that places the child's health and comfort first and foremost. Campers who become or are determined to be ill at camp will be evaluated by our nursing TEAM as to the status of that illness. Campers who are vomiting, have a fever, or have open sores among other symptoms or complaints may be too sick to remain in camp. The Camp Nurse makes that decision based on the welfare of the ill camper, other campers and TEAM Members. Once notified to pick up and sign out an ill camper, a timely response by parent, guardian or listed emergency contact person is required. The Nurse makes every effort to reach parents first, with the emergency numbers provided. If a parent plans to be away on vacation, they should check with their emergency people to make sure they will be available. Our nursing TEAM has many years of experience with children in a school/camp environment. Cooperation and understanding is greatly appreciated.

ILLNESS, APPOINTMENTS AND TRANSPORTATION CHANGES

Counselors will observe the children daily on arrival at camp; however, children with any indication of illness should be kept home. Notes to counselors regarding doctor or dentist appointments, etc. should be given to your child's counselors during opening exercises. Parents **MUST** notify the office if a camper is leaving camp at times other than regular pick up times. (A note or phone call in advance of pick up is required). Transportation Changes: Parents must notify the office by **3:00PM** daily for changes in transportation. A note or phone call from a parent is acceptable. Campers leaving camp at times other than regular dismissal times must be signed out by a parent or guardian in the office.

HEAD LICE POLICY

Any child found to have head lice will be sent home to be treated. Upon returning to camp, a note must accompany the child indicating which shampoo was used and on what date. The child will need to visit the camp nurse to be checked and receive clearance. All nits (or eggs) must be removed from the hair before returning to camp. A child returning with nits still in the hair will not be allowed to remain in camp.

MEDICAL & EMERGENCY FORMS ETC.

Purchase Day Camp has no obligation to permit attendance to campers who have not filed Medical or Contact forms.

MEDICATION POLICY

Parents must sign a permission form for medication administration for any camper requiring daily or temporary medication. Purchase Day Camp will not administer medication requiring a needle or syringe except in an extreme emergency. Parents must notify the camp office regarding any camper taking medication for hyperactivity etc.

Any medication must be in its labeled, original container. Counselors will be notified to bring the camper at the designated time to the First Aid Room. Medication will be administered by the Camp Nurse or other authorized personnel.

HEALTH POLICY (Continued)

ILLNESS POLICY

Parents will be notified when a camper in their child's group informs us that they have one of the illnesses listed below. If your child is sent home due to one of these illnesses, you must follow the guidelines listed below before your child can return to camp. Please feel free to contact our Nursing TEAM with any questions.

SAMPLE:

Official notification was received on _____, _____ that a child in the _____ Group is ill with the ailment checked below. Please review the symptoms and notify the Camp Nurse should your child display any of them. If you have any questions, please do not hesitate to call our Nurse.

MISCELLANEOUS ITEMS

LOST & FOUND

All clothing items **must** be labeled. The lost & found cabinet is located on the lower level of the building just outside the gym. Lost & found items are brought there each Thursday. Counselors are responsible for a regular check of those items. Toys, Baseball Gloves, Tennis Racquets, etc. **should not** be brought to camp unless specifically requested.

Portable video games, DVD players, IPODS and Cell Phones are not permitted at any time.

VISITING

Purchase Day Camp does not have a specific visiting day. Parents are welcome to arrange a visit to observe a typical day at Purchase Day Camp at any time, **with the exception of Special Event Days, rainy days and the last three (3) days of camp.** We recommend selecting one or two periods between 9:30 & 11:30AM as an optimal visiting time for most campers.

Visiting parents must sign-in at the Main Office and receive a PDC Visitor's Pass.

FIELD TRIPS

Field trips are taken by Purchase Day Camp groups going into 5th grade and older. Permission slips announcing trip details will be sent prior to the start of the camp season.

TICKS

In an effort to address parent concerns regarding Westchester County's tick population this summer, we take the following precautions: Applying a special permethrin treated cotton system (Damminix) to our property which is a patented method of killing ticks before they bite. We provide two applications per year. We spray our grounds, particularly wooded areas, at regular intervals. Examination of children, especially after activities near and around wooded areas will take place on a regular basis. We strongly urge parent examination of camper's clothing and skin upon return home.

NATURE CLOTHING SUGGESTION

While the location for most nature classes has been cleared and treated for ticks, parents may want to send pants and long sleeve shirts with campers on scheduled nature class days.

CAMPERS LEAVING PREMISES

Purchase Day Campers will be released to a parent or adult guardian ONLY. Because campers will not be allowed to leave the premises unescorted, parents who are unable to pick up their child must make arrangements for their child to be picked up by another parent or adult guardian.

CANDY/SNACK POLICY

Purchase Day Camp will provide a variety of snacks; however, candy and gum will not be sold. In addition, the snack vending machines will not be available to campers during camp hours. Campers wanting snack treats other than those sold at the snack bar must provide them from home. Exception: Big Al during his traditional athletics Q & A warm up.

MISCELLANEOUS ITEMS (Continued)

CAMP PROVIDES JUICE & SNACK
